THE DAILY NEWS.

Newport:

THURSDAY, JANUARY 27, 1843.

BY O. F. JACKSON, 91-THAMES ST.

Advertisements will please bear in mind that the circulation of the DAILY NEWS is more than DOUBLE that of the Daily Herald, and greater than the combined circulation of the Daily and Weekly Herald. As one proof of this fact, the list of letters remaining in the Post-Office is advertised in the NEWS, as BY LAW REQUIRED.

The Legislature is already in its third week of the session, and comparatively nothing has yet been accomplished. They have acted on a few petitions, and talked at some other matters; but they have not come to the point on anything of importance. One day they visit the Butler Hospital, the next witness an exhibition of the Deaf and Dumb of some of the Asylums of the Country, and so on until Friday afternoon, when they take a recess until Monday afternoon, which means Tuesday morning. The Country members fare well, enjoy the amusements of the city, the feasting and suppers of the elite; and having nothing that particularly demands their presence on their farms, they have no serious objections to living in Providence a few weeks at this season of the year, at the expense of the State.

There ought to be one Session in a year, and that in June or July, and our word for it, the State would get its public work done up at a much cheaper rate than what it is now compelled to pay.

They have yet to act upon the mode of devising ways and means for the State Treasury, and these same old farmers will fight to the last to put a still further oppressive load of taxation on the banks, and save their land from a reasonable and just tax.

The Post Office.—On the first of March the Post office is to be removed to the South side of Swanwick's new block, in Thames street, which is to be fitted with new furniture &c. It is to contain two hundred and eighty-three boxes, somewhat larger than those now in use, together with ten large private boxes, to open on the outside, with lock and key, so that those who hire them can obtain their letters and papers at any time, even while the mails are being opened, without calling on those in attendance in the office.

There will be ample space for the office, which is well lighted by windows, and from the roof; and the lobby, in front, will be twenty feet long, with the width of the store.

We think this an excellent arrangement, particularly in regard to the boxes and the space for those who are waiting for the mails to be opened. Much inconvenience has been experienced, in this respect, heretofore, but it will speedily be remedied now.

Newport is really improving by slow degrees, and there is yet hope of her ultimate redemption to healthy existence.

Donation.—Our friend, Jeremiah Goodspeed, Esq., will please accept our thanks for a pair of beautiful glass Lamps. Although these lamps will not answer very well for office use, yet we can assure the generous donor that we will find a use for them before long, for we are bent on doing something desperate. Friends sent in your donations. Small favors thankfully received, and larger ones in proportion.

In consequence of sickness in the family of Mr. Rogers, of Boston, no lecture will be delivered this evening, before the Association of Mechanics and Manufacturers.

Riots in Canada.—The news from Canada is extremely interesting and important. The result of the election in Montreal was favorable to the liberals, who carried every ward in the city by a large majority. A disgraceful scene of riot and disorder occurred, and for two days the city was in the possession of the mob. This is, perhaps, only the beginning of the end in Canadian affairs.

NAVAL.—It is stated that Commodore Shout has received orders to take command of the Norfolk Navy Yard and station, and will in a few days hoist his broad pennant on board the ship Pennsylvania.

The U. S. ship Plymouth, at the Brooklyn Navy Yard, under sailing orders for the East Indies. She is to be commanded by Capt Thomas R. Gedney. Her stores are all on board, and it is expected that she will depart in a few days.

[Correspondence of the News.]

New York, Jan. 24th, 1843.

FRIEND JACKSON:—

I see by your paper just received, containing my last, that you append a note, in which you take the liberty, or have the assurance, to suppose that "your correspondent" must be getting rather aristocratic. Now your ideas must have been running on a "pony express" and have attained a great speed, in consequence of which you were unable to perceive the same meaning in the paragraph referred to, as you mean to convey in your note, with one exception; I did not say "money is money," for which information consider me ever your debtor. It is a well known fact, that a person of the most excellent education, of good character and standing, but without the recommendation of the "almighty dollar," pines in this world for just what he is; while those more fortunate, possessing but the one shining quality, are allowed to pass as a "Nonpareil," that is as long as he shines. But "Non Pareils," which I take it means, that the minimum of an offensive remark is chilled with the greatest promptitude; so here goes for some other subject.

The war, just now, is uppermost; every body is making out a line for the government to pursue, and every one different, yet all pointing one way, viz., peace, justice and honorably obtained; but Polk don't seem to heed them at all, but seems determined to fight it out. Let him go; after we have conquered and annexed Mexico, I go for extending the area of freedom to the Brazils. The largest liberty for the largest number. We are a great people.

The news from Europe has had a favorable impression, and is generally considered good, by all classes of merchants. But money, to use a change phrase, is tight. Two per cent. per month is demanded, upon the best paper, and security.

The country banks are a source of annoyance to our citizens; every streak of lightning that comes on the wires from the north, brings news of some new bank failures. The new comptroller is wiring them up, and making them conduct their affairs as the law directs. I hope you don't get many of our shin-plasters.

Anti-remism has extended itself to the city of New York. A city member has presented a memorial to the Legislature, from certain tenants of John F. Astor, Stephen Whitney, and others praying to be allowed to commence suits against their landlords, to test their right and title to their lands, lots, and houses. They also claim exemption from the payment of rent to the owners of the land and houses until the question shall be settled by a jury.—*Mexican war and the extension of freedom* is gaining ground here, you will perceive.

Mayor Brady has forever destroyed his chance of being re-elected to the Mayoralty, by enforcing the laws. He makes a good Mayor, and that is enough to damn him with the ruling sovereigns. He issued orders to enforce the ordinance regulating omnibuses, and the chief of police and aids have done so, and Broadway is now rendered passable and safe. But the omnibuses and hack drivers have determined to have the ordinance repealed, and so I suppose it must be done.

A very cool suicide was committed last evening. A passenger on one of the Jersey City ferry boats, when she was about in the middle of the river, handed a note to a gentleman and requested him to send it to the Herald office; he then walked to the end of the boat and jumped overboard, and sunk immediately. The boat stopped, and they looked for some time, but he was never seen after. The contents of the note stated that his family would know the cause of his rash act, and signed Bassford. Yours &c. Cosmopolite.

DESTRUCTION OF THE CITY OF CHARGES.—The bark Alton arrived at New Orleans on the 17th from Kingston Jamaica on the 6th inst., bringing Midshipman Wilson of the navy as bearer of dispatches, who reports that on the 1st inst., the city of Charges, New Grenada, was entirely destroyed by fire. The Custom-house, containing much valuable property, was included in the conflagration.

LATER FROM MEXICO.—An arrival at New Orleans brings dates from Vera Cruz four days later. It was reported that part of the last train for the capital had been attacked by guerrillas, who captured 300 pack mules and \$100,000 worth of property.—Ten Americans were either killed or captured.

Petition of N. Y. Providence and Boston Railroad Company, for increase of capital stock. Granted and act passed.

Petition of John W. Richmond, et al. for the payment of the State Debt.

Mr Whipple introduced a resolution submitting the question of the payment of the claims against the State to the people of the State, qualified to vote on questions of the expenditure of money in the several towns. Messrs. Whipple and Sherman supported the resolution, and Messrs. Cranston, Ames, J. Manchester and Turner opposed it.

The question being on the passage of the resolution, on motion of Mr Whipple the House was called and the ayes and noes ordered to be entered on the journal. Ayes 9. Noes 46.

The report of the Finance committee, to whom was referred the above petition, was called up and adopted.

The committee recommended the appointment of a committee of three citizens of this State, not members of the General Assembly, to whom the whole subject of the State Debt should be referred, and that the committee should report to the General Assembly at the next session, or as soon hereafter as may be, all the facts relative to said claim, the amount thereof and the amount in their opinion which ought to be paid by the State, on account of said claims, if any, and to whom the same is due, with the reasons on which their opinion is founded.

Mr Ames introduced a resolution that a committee of one from each county be appointed to nominate to the House a committee agreeably to the recommendation in the report. Passed.

Afternoon.
House.—An act to change the name of the Providence Methodist Conference Academy. Read and concurred.

Petition of Providence Artillery Company for cannon. Granted and act passed.

The Speaker announced the following named gentlemen as the committee to nominate a committee to consider and report upon the State Debt:—Messrs Robbins of Newport county, Ames of Providence county, Dixon of Washington county, D'Wolf of Bristol county, and Manchester of Kent county.

Petition of Nathan H. Brown et al. of North Providence, for increase of fine for violations of the Sabbath, committed on Judiciary reported an act. The House was called on the passage of the act, and the vote resulted ayes 43, noes 12. Adjourned.

Thirtieth Congress—First Session.

SENATE.—Tuesday, Jan. 25.—Mr Ashley asked and obtained leave to bring in a bill, which was read a first and second time, by unanimous consent, and referred to the committee on judiciary, extending the jurisdiction of the United States courts to all the navigable waters of the United States.

Mr Bagby submitted a resolution for consideration, declaring that congress has no power to establish or prohibit slavery in any state in the Union, affirming the right to acquire territory by conquest, and denying the right to prohibit holding territory acquired.

Mr Davis, from the committee on military affairs, reported a bill providing quarters at New Orleans for sick and disabled soldiers returning from and going to Mexico, which was passed.

On motion, the Senate laid aside the morning business and proceeded to the consideration of the order of the day, viz: the ten regiment bill.

Mr Clarke spoke in strong terms of opposition to the war policy of the administration.

Mr Crittenden asked Mr Cass whether Gen. Scott had been suspended from command, and whether Gen. Worth was relieved from arrest.

Mr Cass replied that both were true, and that the command now devolved on Gen Butler as senior officer.

Mr Crittenden expressed his astonishment in relation to the course pursued in this matter.

House.—The speaker announced as the first thing in order, the business on the table, viz. the reports of committees.

By unanimous consent several resolutions were offered and adopted.

Mr Vinton, chairman of the committee of ways and means, reported a bill providing for the support of the Military Academy. Also a bill for the support of revolutionary and other pensioners, which was read twice, with the usual reference.

Many bills, both private and public, were read twice and referred.

MECHANICS' FAIR.—The Mechanics' Fair exhibits several specimens in mechanical Dentistry which are in the highest degree creditable to the advancement of that branch of art in our city. We have inspected them, particularly those bearing the name of Dr Morton, (well known in connection with the discovery of ether,) which seem to us consummate pieces of mechanism. From inquiry made at the Hall, we learn that the process of mastication, as exhibited in one of his specimens, is not a mere matter of show, as we had supposed, but is the operation of an ingenious invention of Dr M's, the purpose of which, as partly indicated by its name, the *dentometer*, is to give a degree of accuracy not otherwise attainable, to the proper proportions and adjustment of the artificial teeth, so that their action shall exactly correspond to that of the natural set. The entireness of the sets in this case, being free from piecing and their being completely furnished with gold mountings, seemed to us to constitute a distinguishing feature in the character of this work.—Dr Morton's Office is at 19, Tremont Row.—[*Boston Mercantile Journal*.]

Cold Feet are an evidence that the blood is encumbered with morbid humors, which not only render the circulation sluggish and unequal, but prevent a proper supply of the vital fluid to the extremities. Hence coldness of the hands and feet, accompanied with headache, giddiness, and many other unpleasant complaints.

Wright's Indian Vegetable Pills are one of the best preventives in the world against Cold Feet, because they not only cleanse the blood from those impurities which are the cause, but they impart an energy to the circulation which carries it with vigor to every part of the system.

Beware of SUGAR COATED COUNTERFEITS.—Remember that the original and only genuine Indian Vegetable Pills have the written signature of William Wright on the top label of each box.

The genuine are for sale by C. G. C. HAZARD, No. 80 Thames-st., Sole Agent for Newport; and by Nathan Dennis, Portsmouth; Seabury & Albany, Tiverton Bridge; Arnold Smith, Tiverton Four Corners; H. F. Brown, Little Compton; W. A. Brown, Adamsville. Wholesale at the New England Office, 19, Tremont-st., Boston.

One of the most important effects of the recent progress of Science is the alliance of Chemistry with Physiology. By which a new and unexpected light has been thrown upon the vital processes of animals. For this we are indebted chiefly to the German and French chemists.—We have now a clear understanding of the different action of alliments, poisons, and remedial agents, and the long derided theory of the blood being the portion of the system upon which the latter should act, is now a demonstrated truth.

The great object, therefore, is to ascertain what remedy will act most directly upon the constitution of the blood when in the act of combination. Experience, observation, and a cloud of witnesses, establish the fact that SAND'S SARSAPARILLA, is the very head of this class. Cancer, scrofula, salt rheum, erysipelas, leprosy, ringworm, mercurial diseases, suppuration of the glands, swellings of the joints, and all the diseases of the muscles and tissues, together with general debility of the system, yield to this untailing purifier of the blood—for the blood is the channel through which disease finds its way to the various organs of the body.

Prepared and sold by A. R. & D. SANDS, Druggists, 100 Fulton st. A. Y.
Sold also by Dr. R. R. Hazard and R. J. Taylor for Newport, by J. Russell, Fall River, by C. Dyer, For sale by R. J. TAYLOR.

CAUTION.—The public are particularly cautioned against being imposed upon by persons who are selling preparations of Sarsaparilla which they pretend have the same qualities as *Brown's Sarsaparilla* and *Tomato Bitters*. Since these Bitters have been offered to the public, there have been no less than four different imitations put up by as many different individuals, and sold for the genuine. The good qualities of Brown's Extract of Sarsaparilla and Tomatoes, or Sarsaparilla and Tomato Bitters, is already known and appreciated by physicians and the public—particularly by those who have suffered from impurities of the blood, bad humors, scrofulous diseases, Billious affections, Costiveness, loss of appetite, &c. There has been no medicine sold that has given such general satisfaction. There cannot be the least doubt but this compound is the best alterative now in use. We have abundance of proof of that fact. There have been thousands of cases of impurities of the blood cured by this medicine. Some of them have been truly wonderful, where the patients have been given over as incurable. The above compound is not merely a common extract of Sarsaparilla, but a very strong extract of the best Spanish Sarsaparilla, extracted by an entirely new apparatus, made expressly for the proprietor, and used by no other person in this country. This apparatus ensures the whole medicinal qualities of this most valuable root.

Miracle.
ON the 4th of August, in the year 1813, a singular scene occurred in the Royal Scientific Institution of France. The aged, white headed President, his head bare, his arms outstretched, his face radiant with smiles, (for science was triumphant) and his voice with gratulatory tone, delivered the following report:

"We are astounded at this singular preparation. Where indeed will science stop! Here we have a preparation made in the form of a beautiful piece of soap, which we know by actual practice, to cure every cutaneous eruption, every disfigurement of, and even discolored skin! Where will its magic and singular power cease! The Negro, the Creole, the Yellow Race of the East, and the Red Man of the far West, are alike under the influence of its extraordinary powers of clearing yellow or discolored skin, and making it white and beautiful, and of changing the color of dark, or black, or brown skin." (Here several persons were brought forward by the President, who had used it, in proof of his assertion.)
There are probably few persons of intelligence, who, after reading the above, will doubt the qualities of JONES' ITALIAN CHEMICAL SOAP, in curing Pimples, Blotches, Salt Rheum, Scavry, Erysipelas, Sore Heads, Old Sores, Head and Barber's Itch, Chapped and Tender Flesh, Freckles, Tan, Sunburn, and changing dark sunburn or yellow skin to a pure, clear white, as smooth and soft as an infant's, and in fact every kind of eruption and disfigurement. Read these certificates: [From the N. O. Sentinel, Oct., 1811.]
One of our subscribers, Mr. H. Leonard, informs us that he has been cured of old, scaly Salt Rheum, of eighteen years standing, on his head, fingers and hands, by a cake of an article much advertised lately—we speak of Jones' Italian Chemical Soap. He also informs us that he has tried its effects on his female slave Rose, much marked with sun spots, and he found in two weeks her skin much clearer and whiter.
James Ethman, a painter in Jersey City, was cured of carbuncles and pimples, which he was afflicted with for many years, by part of a cake of Jones' Italian Chemical Soap.
Persons in purchasing this must always ask for Jones' Italian Chemical Soap; and perhaps, as many who have been cheated with counterfeits, will be too much discouraged to try the genuine, we say to such, try this once—you will not regret it; but always see that the name of T. JONES is on the wrapper. For sale in Newport by

The Good Things of the Season, FOR
Parties, Holiday Presents, &c.

WINTER evenings and YOUNG'S Variety Store form pleasant associations for the inhabitants of Newport. There is nothing so rarely that can contribute to the comfort of all that cannot be obtained at this store, and all so low and a great many much less than can be bought elsewhere in Newport. For example, we will attach the following prices, and every article is warranted.

Western Apples from \$1 75 to \$2 12 per lb; shell-barks \$2 per bushel; peanuts \$1 63 per bushel; chestnuts from four to five dollars per bushel; almonds one shilling per pound; new raisins, figs, dates and currants 12 1/2 cts per pound; we sell the so last named articles at wholesale prices. Prunes 20 cts per pound; grapes 25 cts; new citron 28 cts; preserved ginger \$1 12 per jar, or 30 cts per pound, in small quantities; candies and all kinds of confectionery cheaper than they have ever been sold at any other store in N. W. at wholesale and retail, always fresh and of the finest quality; for the truth of this we wish every one to come and judge for themselves.

This is no idle advertisement merely to draw people to my store to disappoint them, but a plain statement of facts, which all may certainly call. Also several kinds of Cough Candy warranted equal to any now in use, for the cure of all kinds of complaints arising from colds.

Fancy articles and toys of every description, in any quantity, such as silk purses, pocket books, cigar cases, packet knives, scissors, razors, razor straps, hair, clothes, tooth, and shoe brushes, fancy work boxes, walking canes, dominoes, dice, conversation cards, French and English dolls, combs of all kinds, eclogues, hair oil and pomatum, cigars, tobacco, and everything that is ever kept in a confectionary and variety store.

Phalon's Chemical Hair Invigorator.

A REMEDY for all diseases of the Hair, and is restorative in all cases where baldness is not beyond the reach of art.

Naught with beauty can compare,
With soft, glossy locks of hair;
If not endowed with such by nature,
Use Phalon's Hair Invigorator.

The subscriber having devoted a considerable portion of his time, twenty years to the study of the skin and the human hair, also the best means of treating and curing the same, and having, in the course of his experiments made various changes and improvements in the different articles approved as the best for such purposes, has at length, after laborious research and deep investigation, succeeded in bringing to perfection a composition, the virtues of which he challenges the world to excel.

The Chemical Hair Invigorator is composed of a number of vegetable ingredients of opposite qualities, and approved by the highest medical standard, the secret of blending and combining, which is known only to the subscriber, who has spared neither pains nor expense in bringing it before the public.

The Invigorator is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy measure of the hair never before attained, yet free from animal grease or essential oils. It cleanses the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff and other cutaneous diseases, disposes the hair to curl, and keeps it so—will positively change the hardest hair into the most soft and healthy and glossy state, also imparts to it a darker color, and a fine effect will keep both the skin and hair in a healthy and luxurious state until the last period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which when moistened with the Invigorator can be dressed in any required form, so as to preserve its place whether plain or curled. When used on children's heads it lays the foundation of a good head of hair.

The great and only Successful Remedy for the cure of Consumption,

IS Dr. E. W. Vandersmith's INDIAN COUGH BALM AND LUNG BALM.

READ—
Disease of the Lungs and Throat cured.

This is to certify that I have been afflicted for five years with a cough, pain in the chest, night sweats, difficulty in breathing, etc., and I also expectorated a large quantity of frothy matter and blood, from which I was reduced to a perfect skeleton, my throat was very much ulcerated. I had lunar cataplast applied to my throat twice a week, but received no benefit; I have tried one hundred different kinds of Patent Medicines, recommended by my friends, but all to no purpose. A friend of mine, Mr. Willitt, whose lungs had been affected for two years past, was cured by Dr. Vandersmith's Medicine. He insisted upon my trying Dr. V., and I did so. After I had used his medicine 15 days, I expectorated large quantities of yellow frothy matter, my chest expanded, and my difficulty in breathing subsided. I persevered with his medicine, and the result has been, I am perfectly cured of all my sickness. I recommend every consumptive to try Dr. V.'s medicine. I am confident it will cure you. Your sincere friend,
EDWARD C. THOMPSON.

Inflammation of the Lungs.

New York, June 19, 1847.
Dr. Vandersmith:—I have been subject to a cough, pain in the chest, difficulty of breathing, &c., for many years past. About four months ago I took a severe cold, which settled on my lungs. I was unable to attend to my business during the day. I would have dreadfully coughed up, that I thought it was impossible for me to survive unless I could get relief. The excessive night sweats had reduced my whole body to a skeleton. I expectorated white frothy mucus, in fact, should I give the full particulars of my case, it would be almost incredible. I was recommended to try Dr. Vandersmith's Indian Cough Balm and Lung Balm. I consented; when I used it about one week, my cough decreased considerably, which gave me great hopes. I continued with the medicine according to directions, and the result has been that I am restored to health, a blessing that I have not enjoyed for years, until the present. I sincerely believe had I not made use of Dr. Vandersmith's invaluable medicine, that I would be mouldering in the silent grave. Therefore I believe that I am doing nothing but what is justice, in stating the above facts, so that you may show it to all the afflicted who may call upon you to administer to them. I shall be pleased at any time to converse with the afflicted who call upon me. Your grateful patient and friend,
JAMES B. HENDERSON.

Consumption.

Staten Island, June 10, 1847.
Dear Sir:—I take great pleasure in giving you my certificate, last December I was attacked with a severe cough, pain in my left side, loss of appetite, and continual raising of white and yellow mucus. Some days I raised a half-pint of mucus, streaked with blood. I have been under the treatment of a dozen physicians, I was recommended by Dr. Mitchell of Philadelphia, to use a Breathing Tub, I purchased one, I only made use of it one week, it was the cause of bringing on a hemorrhage of the lungs, which reduced me so much that I was unable to sit up, my voice was entirely destroyed, it was difficult for persons to understand me. I saw Dr. Vandersmith's Medicine recommended very strongly by a patient whom he had cured. I sent for half a dozen bottles, I received great benefit from that, which induced me to purchase a dozen bottles, I took according to the directions, and it cured me perfectly sound.

Yours, &c. ROBERT WILLSEY.

The American Improved Hygienic Vegetable Medicine.

SAFE, CHEAP AND EFFECTIVE.—This medicine makes no pretensions to miraculous powers, the rising of the dead, or to immense and astounding sales daily and hourly, after the most approved method of the times; but bases its claims upon plain common sense principles, as a simple aid to nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and asks simply a faithful trial as a test of its curative properties. During the last twenty years it has worked its way into extensive use, wholly upon its own merits, by commendation from individual to individual, not having been advertised for more than twelve years till within the past few months—save occasionally in a journal of which the present proprietor is Editor. The increasing demand, however, has necessarily compelled greater attention to its business, and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years,) as their only medicine, and knows it to be valuable in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand mere assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it, then. Ready, try, and then judge.

Coggeshall & Bliss' Patent Cooking Range.

THE subscriber has just taken out letters patent for a new and beautiful cooking Range, to which they invite the attention of the public.

This Range may be set in the ordinary fire place, and by a simple, though effectual apparatus, the throat of the chimney may in an instant of time, be opened or closed, so that the heat in summer and the fumes from cooking at all times may escape through the chimney.

Wood or coal may be used, and the evil of smoking chimneys is completely remedied by its introduction.

This Range is so constructed that it takes up but a small space, and yet it contains all the qualities of those which take up double the amount; and it being constructed as it is, the Boilers are brought in close proximity with the fire, and it consequently boils much sooner, and with a smaller amount of fuel, than the old fashioned Ranges, or cook stoves.

It contains five boilers, four of which may be converted into two, by taking out a cross piece, and thus will admit of two large boilers at the same time. It also contains an Oven 12 inches wide by 21 deep, which cannot be surpassed for baking.

The subscriber has one of these Ranges in operation at his store, where the public are invited to call and examine it, and if they will they may at once discover its utility. He also keeps constantly on hand all kinds of Parlor, Office, and Cook Stoves, Tin Ware, &c., &c.

Dr. EMANUEL, Dear Sir:—You may perhaps think my statement almost incredible. My reason for fearing so is the fact of your never recommending your Jelly for the cure of confirmed consumption, but only in its primary or first stages. I have every reason to believe that I was in its last stage; my physician told me so; my friends told me so; as well did my symptoms, for they were truly alarming; and I felt fully convinced, that unless relief was obtained, I must soon be consigned to the narrow confines of the silent grave. But by the timely use of your remedy, I still live, and again enjoy my former good health. I had, indeed, dear sir, all the alarming symptoms you speak of as forming consumption in its worst stage; but by the use of your Jelly, I again say, I am cured.

Yours, dear sir, with great sincerity, ISAAC J. NEED.

And now, reader, having given you a plain statement, let me conjure you to pause, ere it is too late; try this Balsamic Lung Jelly—try it. I have put its price to you as low as I can afford; if you use it, and succeed in curing yourself, I shall have the gratification of having rescued another from consumption; and I hope, in return, that you will not withhold from me your name, and a statement of your cure.

MOTHER'S RELIEF.

IT is now about ten years since this medicine has been introduced to the public, and it stands unrivalled in its effects, bearing the test of the severe scrutiny of all classes, both friendly and unfriendly. It is but for one purpose—for the use of Mothers who have to pass through a sea of affliction in giving birth to mankind, not to be described. It is to you we make an appeal. It is for your especial and general good that you should make use of one bottle of the MOTHER'S RELIEF before confinement. Then you can approach the parturient chamber without feeling as if you were going to the chamber of death. You may rest assured it will still all fertility and nervous affection. It soothes and shields from irritation and by its peculiar properties it destroys the cause of hemorrhage or inflammation that so often attend and follow the hour of parturition. It causes sweet and natural rest, and at last facilitates the birth, so that Mothers have not to pass through such excruciating pain and distress. The Mother's Relief may be depended upon in all cases of threatening abortion where it is possible to be prevented in cases of Spasms, &c., causing frequent alarm, from two to three doses will give immediate relief.

As the subject is one that cannot with propriety be fully discussed in this public manner, we invite all who feel interested to call on our agents (most of the respectable Druggists in the United States,) or on the manufacturer, and they will be furnished with a pamphlet in which they will find all the facts to form a correct opinion of its merits, and also the opinions of many physicians of eminence, and of persons who have become acquainted with its beneficial effects.
